ABDERRAHMANE DRISSI

Engineering Student

Salé, Morocco | +212 635009061 | abderrahmane.drissi@nyxar77.xyz | nyxar77 | Abderrahmane Drissi | portfolio.nyxar.space

EDUCATION

Moroccan School of Engineering Sciences (EMSI) **10/2025 – Present**

Engineering Programme – Rabat

OFPPT - Digital Development **09/2022 – 07/2024**

Specialization: FullStack

PROFESSIONAL EXPERIENCE

Software Engineering Intern – Nibiru Consulting **08/2026 – 09/2026**

Rabat, Morocco

- Designed and built Eden ↗ from scratch in Go: a YAML-configured engine that validates pipeline graphs and streams JSON events through in-memory channels.
- Implemented conditional routing, field transformations, explicit branches, bounded workers, backpressure, and coordinated shutdown on errors or signals.
- Added Prometheus metrics and health endpoints, native Go modules, reproducible Nix and CI checks, race-enabled tests, and end-to-end benchmarks reaching 53k messages/s for a one-transformation workload.

Full-Stack Developer Intern – ONEE **03/2024 – 04/2024**

Fès, Morocco

- Developed ParcAuto ↗, a vehicle fleet management system with Laravel, React, Inertia.js, and MySQL.
- Implemented CRUD workflows, data import/export, operation history, and a reactive supervision interface.

TECHNICAL SKILLS

Languages: Go, TypeScript/JavaScript, Bash, Lua, C++
Frontend: Svelte, React, Capacitor, HTML/CSS
Backend: Bun, Laravel, Django, MySQL, REST APIs
Tools: Nix/NixOS, Git, Docker, ADB, Neovim

Concepts: Event Pipelines, Local-First Apps, Automation, Testing, CI/CD

MAJOR PROJECTS

Pulse – Offline Workout Planner ↗ **Svelte | TypeScript | Capacitor | Android**

Local-First Mobile and Web App

- Built and released an offline-first workout planner with 72 exercises, muscle maps, per-set tracking, JSON backups, installable Android and web builds, and no accounts or analytics.

Elene – Local Android Utility ↗ **Go | ADB | Nix**

Android Developer Tooling

- Built an ADB CLI prototype for safe device detection and inspection, backed by Nix checks for formatting, static analysis, race-enabled tests, vulnerability audits, and CI.

projectorctl – Safe Hyprland Display Switcher ↗ **Shell | Nix | Hyprland | Quickshell**

Linux Desktop Tooling

- Built a CLI, Quickshell panel, and Home Manager module for private, mirrored, and extended display layouts, with automatic audio switching and fail-closed recovery when a display disappears or verification fails.
